
RESOLUTION PROPOSAL

DATE: May 27, 2010

SUBJECT: Strategic Plan 2010

SPONSOR: Leighton H. Cumming, President LMOA Board

BACKGROUND INFORMATION:

Strategic Plan Update 2010

LMOA's Strategic Plan was approved by the Board June 26, 2008, with sixteen action items approved September 25, 2008. The LMOA Strategic Plan is a living document, updated annually by the Planning Committee following community and committee input. The Board then approves changes to the plan.

The Board usually sets goals for the year in July when a new board takes office. Those goals often include a number of action items with high priority from the Strategic Plan. During the budget process, new initiatives from the Strategic Plan are identified and discussed by staff, committees and the Board. Listing an action item on the plan does not automatically mean that it will be funded, only that it should be considered when the time is appropriate, funding is determined, and a project manager (if needed) can be identified.
